## The Artist's Room

Gallerist Pilar Ordovas has just launched an online exhibition which she says is an "ode to seclusion and escapism". Called *The Artist's Room*, we can see works from 12 contemporary artists which focus on the interior spaces where they work or live. Set to be a physical show as soon as circumstances allow, works on view include those by Lucian Freud, Henri Matisse, José Antonio Suárez Londoño (pictured) as well as photographs by David Dawson, whose interview with us appears on both the website and our Youtube channel.
